Plug and Play Installation

Simple wizard tools lead you the installation and configuration of the SAN. Seamless integration with the SANsurfer Express tool provides management of your SAN plus Microsoft VDS compliant storage from a single tool!

Incredibly Low Cost

As an entry level switch, the smallest business can now afford and enjoy the benefits of networked storage without having to become a storage expert.

Small, Powerful Package

At only 2lbs and 6" deep, the SANbox 1400 requires only half a slot to maximize your rack usage. Now, 2 units can be placed in a single slot for a total of 20 ports in 1U - maximum port density and power with minimum investment!

Pervasive Interoperability

Interoperable with popular servers, storage and networking products from major manufacturers including: ADIC, Brocade, Cisco, Computer Associates, Dell, EMC, Emulex, HDS, HP, IBM, LSI, McData, Microsoft, Quantum, StorageTek, Sun, VERITAS, and many others.
